World's Largest Manufacturer of Rotary Tiller

Power Harrow

Shaktiman Power Harrow is suitable for the crops which require deeper tillage like Potato and tuber crops. Its boron steel long blades help achieve deep tillage in any type of soil. It reduces the number of tillage operations reducing number of passes, thus help in reducing compaction of soil. It comes with option of multispeed to adjust speed as per the customer's requirements. The leveling bar is a standard feature and accessories consist of three types of Rollers: Packer Roller, Spike Roller & Cage Roller

Advantages...

- Its long and sharp blades can easily plough any land and achieve tillage depth up to 10 inches.
- Its sturdy structure is welded with high thickness plates which makes sure that it operates under toughest conditions.
- Its Gear Box designed with quality components promises longer life cycle of the implement.
- It ensures faster operation and completes function in less time reducing fuel consumption and soil compaction.
